Program Overview: The NextZero Prescriptive HVAC Incentive Program is designed to expedite the processing and installation of typical HVAC energy efficiency opportunities in commercial, industrial, and non-residential buildings. Incentives are offered to promote the installation of premium efficiency HVAC equipment and offset the incremental cost of such systems over standard replacements.

Incentives are capped at 50% of Installed Costs up to \$5,000.

4 Easy Steps to receive your NextZero Incentive:

1. Is your project eligible?

- Equipment must be new and installed in a non-residential building located in a participating Massachusetts Municipal Utility Territory.
- •Installation completed, or to be completed, within the current program year of **January 1, 2025**, to **December 31, 2025**. Applications must be received within the current program year to qualify for incentives.

2. Is the equipment you intend to buy eligible?

•Only the exact product types and minimum efficiency levels listed in this form are eligible for prescriptive incentives.

3. Complete and sign the application.

• Incomplete applications will delay review and payment. Please be sure to provide all requested information.

4. Pre-Approval is required for all incentive applications:

- <u>Before</u> you purchase and install the equipment, send the following to the NextZero Program to receive a "pre-approval incentive" letter:
 - a. Your application with all the requested information filled in.
 - b. Manufacturer's technical specification sheets ("cut sheets") for each type of eligible equipment purchased.
 - c. A copy of your most recent electric bill.
 - d. A W9 for the rebate recipient (customer or installer, as indicated on application page 2).

Please note that item b, above, <u>must</u> be submitted for your application to be processed.

- After you have purchased and installed the qualified equipment, return the following to the NextZero Program:
 - a. A signed copy of your "pre-approval incentive" letter.
 - b. Your most recent electric utility bill.
 - c. A copy of your itemized invoice showing equipment costs and labor costs as separate line items, date and place of installation and model/part numbers of the equipment installed.
 - d. Invoices must be submitted within 60 days of the invoice date.

Please note: To receive an incentive from the NextZero Program, invoices, and manufacturer's technical data sheets ("cut sheets") will always be required.

Application Submission: Submit the application and appropriate documents using one of the following methods:

E-mail: energysavings@mmwec.org

Mail: NextZero Program c/o DNV 120 Water Street, Suite 350 North Andover, MA 01845
