

**NextZero Commercial & Industrial
Program
Custom Application Form**

Templeton Municipal Light & Water Plant’s (TMLWP) NextZero Commercial & Industrial program provides incentives and technical assistance to promote the identification and implementation of electric energy efficiency improvements for commercial customers of **TMLWP**. The program targets all cost effective opportunities that result in electric savings in existing or new facilities. Applications will be reviewed on a first come first served basis.

How does it Work? Customers who are interested in participating in the program should complete and submit this application form. The program administrator will contact the applicant by phone to review the application and to better understand the specific goals and interests of the applicant. **TMLWP** and the program administrator will work with the applicant throughout the process to help customers achieve their goals. A rebate is issued upon successful post installation inspection and receipt of final invoice(s). Further information on the program design, including eligible measures, incentive caps, and financing options are provided in the Custom Retrofit Program Description available at www.NextZero.org.

Who is Eligible? All non-residential customers, including commercial, industrial, governmental, and institutional are eligible to participate in the program. Multifamily residential buildings (5+ units) are eligible for measures related to shared systems/structures. Customers must be in good financial standing with **TMLWP** to participate in the program.
