EV Charging 101

The Guide to Fueling Electric Vehicles

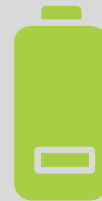

Read the below guide to learn more about the different charging levels of electric and plug-in hybrid vehicles

LEVEL 1 STANDARD OUTLET

- Connector provided with every EV
- Plug into a standard 120V wall outlet
- Great for overnight or workplace charging
- Ideal for daily commutes under 40 miles

4 miles per hour

LEVEL 2 240 VOLT OUTLET

- Available for both home and stations
- Provides a full charge for most EVs in:
 - 1-2 hours to full charge (hybrid)
 - 4-8 hours to full charge (all electric)

25 miles per hour

DC FAST CHARGE

- Faster charging rates at commercial locations
- 3 different connectors depending on EV:

CCS Combo
65 miles in
20 mins

CHAdEMO
67 miles in
30 mins

Tesla Supercharger
130 miles in 20 mins

200 miles in 1-2 hours

Times listed are approximate. Charge time will vary depending on vehicle, remaining range, and station power.
